

PMB/PMSG series

Small suction cup vacuum suction device

小型吸盘式真空吸具

- 体积轻巧，结构简洁，安装方便；
- 主要应用于表面光滑的零件及多孔型结构的工件，安装有自闭阀、节流阀，即使有部分泄露也可有效抓取；
- 适合各类电子线路板上下料；
- 可根据自身需求直接联系业务人员定制。
- Lightweight in size, simple in structure, and easy to install;
- Mainly used for parts with smooth surfaces and porous structures, equipped with self closing valves and throttle valves, which can be effectively grasped even if there is partial leakage;
- Suitable for loading and unloading various electronic circuit boards;
- You can directly contact business personnel for customization according to your own needs.
